## SPIRULIN PLUS FOOD SUPPLEMENT LABEL

### SPIRULIN PLUS FOOD SUPPLEMENT

60 capsules / 750 mg

**Spirulin Plus** is a multi-component food supplement that helps detoxify and de-acidify the body. The spirulina contained in it increases the overall vitality of the body, protects it against the consequences of oxidative stress and helps maintain the proper functioning of the immune system. Dandelion supports the secretion function of the liver and also contributes to the correct functioning of the stomach, liver and urinary system. In addition, dandelion combined with nettle and green tea effectively increases the excretion of excess water from the body. The zinc content in **Spirulin Plus** contributes to maintaining the proper acidity balance of the body and the metabolism of macronutrients.
